 Phone Date

## How to Submit

- 1) Make sure the form is completed and signed by your health care provider and obtain copies of lab reports if applicable.
- 2) **Log on to the Patient Portal at [selfcare.tulane.edu](http://selfcare.tulane.edu) using your Tulane log-on information.**  
It may take up to three business days after you receive your Tulane email account before you can access the Patient Portal. If you still cannot log in to the Patient Portal after three days, please contact the immunization office for assistance at [immunizations@tulane.edu](mailto:immunizations@tulane.edu).
- 3) **Upload the completed form along with any necessary lab reports.**
- 4) After your form is uploaded, it may take up to five business days for the form to be reviewed and verified. Check your Tulane email regularly for notification of secure messages from The Health Center.
- 5) **You will receive a secure message** via the Patient Portal notifying you whether your records are either  
(✓) in compliance which allows you to register for classes or  
(✗) out of compliance which means you cannot register for classes until you upload the additional records specified via secure message.
- 6) All communication regarding your immunization records is private and visible only via the Patient Portal. You will receive a secure message alert in your Tulane email directing you to the Patient Portal. You should **submit health information only via the Patient Portal** and never by email.
- 7) You will be eligible to register for classes **only** once your immunization records are in compliance with University policy and Louisiana law.

For more information, visit [wavehealth.tulane.edu](http://wavehealth.tulane.edu) and click the "Immunizations" quick link or access it directly at [www2.tulane.edu/health/quicklinks/immunizations.cfm](http://www2.tulane.edu/health/quicklinks/immunizations.cfm).

For assistance please email [immunizations@tulane.edu](mailto:immunizations@tulane.edu).
